RE: **Permit by Rule Registration Notification**
(K.C. Construction – 777-00284)

Dear Mr. Klika:

On July 3, 2001, the Idaho Department of Environmental Quality (DEQ) received a Permit by Rule Registration form for Nonmetallic Mineral Processing Plants from Spidell and Associates on behalf of K. C. Construction.

Your registration for Permit by Rule is registered in our files. There were no existing air quality permits associated with this facility; therefore, no permits required termination. DEQ recommends you maintain a copy of this letter and a copy of the enclosed registration form that you submitted for your records.

Please be advised that the registered equipment must comply with the Rules for the Control of Nonmetallic Mineral Processing Plants in accordance with IDAPA 58.01.01.790 through 802 (*Rules for the Control of Air Pollution in Idaho*). A copy of these regulations can be downloaded by visiting the rules page on DEQ's web site at www2.state.id.us/deq.

Other Air Quality Requirements

If your crushing plant is portable, you will be required to submit a portable equipment relocation form each time the plant is moved to a new site of operations. This form is required to be submitted to DEQ ten days prior to relocating the equipment. A copy of the form may be downloaded by visiting the DEQ website.

If you have any questions regarding this Permit by Rule process, please contact me at (208) 373-0212.

Sincerely,

Mike Simon
Facility Operations Coordinator
Air Quality Division
